- 2. Send a copy of the medical records to the psychologist. This review is an important part of the neuropsychological evaluation.
  - a. If the applicant has Medicare, then the psychologist must bill Medicare for the assessment.
  - b. If the applicant does NOT have Medicare, then the psychologist must bill Medicaid for initial assessments.
  - c. You provide the psychologist with the applicant's Medicare or Medicaid number. The Medicaid number may be a permanent number beginning with 06; or a temporary number beginning with 00.
- 3. Once you receive a copy of the neuropsychological report:
  - a. Submit the neuropsychological report in EMWS.
  - b. Once that is approved by the Division, submit the ICAP request in EMWS.
- 4. The decision of clinical eligibility will be based on a review of both the neuropsychological and the ICAP reports.
